

FOR IMMEDIATE RELEASE

Vocantas and 4S DAWN (A Division of 4S Information Systems Ltd. of England) announced the integration between CallAssure™ and DAWN AC Version 7

CallAssure and Dawn enables the interface a variety of healthcare software systems

OTTAWA, ON, CANADA - June 27, 2006 - Vocantas Inc., experts in Speech-Enabled Interactive Voice Response Systems (IVRS) and Automating Business Processes for the healthcare industry, today announced they have completed integration with 4S Dawn Software AC Version 7.

Both firms have worked to integrate their respective solutions with the goal of increasing effectiveness in the area of Chronic Disease Management. CallAssure linked with Dawn AC Version 7 greatly expands the options for all stakeholders in anticoagulation care. Primary care physicians, hospital and medical centre staff and pharmacies can use CallAssure's powerful and robust capabilities to ensure accurate and timely information to patients on test results and dosage changes.

Syd Stewart Managing Director of 4S DAWN Software points out that "the combination of the power of the web browser based Dawn AC v7 and CallAssure CDM presents to our customers and prospects a tremendous boost to productivity and enhanced safety in patient tracking and convenience".

"We are pleased at the work both teams have done to ensure the patient gets the best and most timely information available" stated Gary Hannah, CEO of Vocantas "Vocantas now works with both version of DAWN ensuring a seamless transition for any existing clients".

CallAssure is a registered trademark of Vocantas Inc. The names of other companies or products mentioned herein may be the trademarks of their respective owners.

About Vocantas

Vocantas is a developer of interactive voice response systems (IVRS) that use advanced computer telephony and speech technology to provide its customers with cost-effective customer outreach solutions. The company's easy-to-use, turn-key solutions offer customizable core features and optional enhancements that integrate seamlessly with existing systems. Its products have particular application in the healthcare, education, utilities and customer service environments where they have been proven to increase efficiencies while minimizing operational costs.
