

Automated Shift Filling

Automatically fill shift vacancies in minutes with real-time shift callout communications to eligible employees.

Fill more shifts in less time by replacing manual shift callout processes with Vocantas' leading automated shift filling solution. Automatically communicate open shifts to eligible employees through multiple channels and empower employees to easily respond and bid on the shifts that work best for them. Then, bids are organized to ensure the most suitable employees are awarded the shifts, eliminating potential grievances.

Faster Shift Callout Process

How it Works

1. Communicate Shift Offers

Communicate shift offers in seconds to all eligible employees through their preferred channel.

2. Receive Employee Bids

Empower employees to quickly bid on shifts through text (SMS), phone (IVR), mobile app, email, or our secure online portal.

3. Award Shifts

Automatically award shifts to the most eligible employees based on custom business rules and fill shifts in minutes.

Additional Benefits

Plan Ahead and Stay Prepared

Let ASF fill shifts in your schedule weeks in advance. Quickly react to shift vacancies at anytime, effortlessly.

User Friendly

Let employees choose the method of communication that works best for them. Vocantas offers an easy-to-use mobile app for employees to bid on open shifts.

Robust Reporting

Always know what happened with every shift offer using Auto Shift Fill's robust reporting and detailed audit trail.

Boost Morale and Avoid Grievances

Empower employees to bid on shifts fairly using your organizational rules and avoid grievances. Promote a better work-life balance by providing staff with choice and future notice in their schedule.
